CLÍNICA MÉDICA SERRA VERDE — Sintra

Av. Heliodoro Salgado 14, 2710-574 Sintra · ERS E-128844

ATESTADO MÉDICO / MEDICAL CERTIFICATE

(Bilingual document issued to foreign patients)

Patient / Utente: Eleanor WHITCOMBE — DOB 03/04/1991

Date of examination / Data: 16/09/2026, 13:20

History / Anamnese:

Patient reports inversion injury to the right ankle at approx. 11:45 today while descending stone steps (path to Castelo dos Mouros, Sintra). Immediate pain and swelling, difficulty weight-bearing.

Examination / Exame:

Swelling and tenderness over the anterior talofibular ligament, right ankle. No bony tenderness at the posterior edge of either malleolus. Able to bear weight with pain. Neurovascular status intact.

Investigations / Exames complementares:

X-ray right ankle, 2 views: no fracture or dislocation.

Diagnosis / Diagnóstico:

Grade I lateral ankle sprain, right (S93.4).

Treatment / Tratamento:

Functional bandage applied. RICE advised. Topical anti-inflammatory (diclofenac gel) and an elastic ankle support recommended — available at pharmacy.

Restrictions / Restrições:

The patient should avoid prolonged walking, standing and uneven surfaces for 72 hours from the time of this examination (until 19/09/2026, 13:20). Elevate the limb when resting. Fit to fly on 19/09/2026 with assistance at the airport if needed.

Follow up with GP in the UK if symptoms persist beyond 2 weeks.
